

Resilient, future-focused, delivering societal value

Eurasian Resources Group | Sustainable Development Report 2023

ERG is a major supplier of critical minerals that are enabling the global energy transition

BUSINESS PERFORMANCE OVERVIEW

1,471 kt Ferroalloys production	163 kt Saleable copper metal and copper concentrate ¹
20 kt Saleable cobalt hydroxide	261 kt Aluminium production
\$1,440 M Capex	

-  Advanced Phase 2 development at our 10th Anniversary mine (Kazakhstan)
-  Developing Green reprocessing project at Donskoy GOK (Kazakhstan)
-  Scaling up production within the aluminium division (Kazakhstan)
-  Implementing Phase 2 at our cobalt and copper Metalkol operation (DRC)
-  Development of Cut 4 at our Frontier operation (DRC)
-  Development of our BAMIN iron ore and logistics operation (Brazil)

E

\$480 M
10-year programme to reduce air emissions in Kazakhstan

 **Decarbonisation strategy**
Finalised for our operations in Kazakhstan

29.4 MT CO₂e
GHG emissions

44.5 thousand
Trees planted in Kazakhstan

150 MW
Construction of Khromtau-1 wind power project near Donskoy GOK (Kazakhstan)

 **Water audit programme**
To reduce pollution at our operations in Kazakhstan

7.9 million tonnes
Of historical tailings reprocessed at Metalkol

 **Implementation of environmental plans (Projeto Básico Ambiental) in Brazil**

S

25%
Of our employees are female

0.71
LTIFR

\$52 M
Community social investment

> 54,000
Or ~ 90% employees in Kazakhstan underwent training through the ERG Corporate University

\$8.6 M
Construction of modern and digitally enabled schools in our operating regions (Kazakhstan)

> \$1.1 M
Purchase and repair of medical equipment in our operating regions (Kazakhstan)

\$793,000
Provision of clean water to local communities in the DRC

\$7,283 M
Economic value distributed

\$1,257 M
Taxes paid

\$2.2 M
Support for education of more than 4,600 students (DRC)

\$479,000
Support for agricultural development programme (DRC)

153
Community based entrepreneurs, including 104 women, trained under the Transformar project (Brazil)

206 young people
From the lowest-income local communities trained under the programme "Site School" (Brazil)

G

 **Ongoing application of our "beyond compliance" assurance model**

> 16,500
ERG employees trained in the Human Rights training programme

> 1,000
Counterparties' personnel trained on the ERG Supplier Code of Conduct

Kazchrome (Kazakhstan) – 'Responsible Chromium' status by ICDA

Kazakhstan Aluminium Smelter – Responsible Aluminium Framework and compliance with the LME's Responsible Sourcing requirements

Metalkol (DRC) – Clean Cobalt and Copper framework, PwC assurance of our 3d Performance Report and 2d successful RMI RMAP assurance

GBA's Battery Passport – bringing new levels of transparency to the global value chain

UNDERPINNED BY OUR VALUES

SAFETY

UNITY

EFFICIENCY

DEVELOPMENT

RESPONSIBILITY

1. Includes copper produced at Metalkol and Frontier.
